About Us

www.ews-wellness.com

Engineering Wellness Solutions LLC is a UAE-based company committed to promoting health, relaxation, and wellness through high-quality thermal experiences. We specialize in the design, manufacturing, supply, and installation of wellness systems including sauna rooms, steam rooms, hammam (Turkish bath) setups, and express shower cabins for residential, commercial, and hospitality projects across the Middle East.

Our team brings together years of hands-on experience in wellness technology, engineering, and craftsmanship. We work closely with clients—whether homeowners, interior designers, contractors, or hotel operators—to deliver functional, efficient, and beautifully integrated wellness solutions that suit their space and lifestyle. little more extra like one more .

What We Do .

Sauna Room

We offers fully customized sauna room cabins designed for comfort, performance, and aesthetics. We handle everything from the structural framing to the final interior wood finishing, using premium materials like Canadian cedar or hemlock. Whether you prefer a traditional dry sauna or a modern electric sauna, our cabins are built to fit any residential or commercial space. We also manufacture our own energy-efficient sauna heaters and smart controllers, ensuring precise temperature control and a reliable sauna experience every time. Each cabin is carefully crafted to provide a durable and relaxing escape tailored to your needs.

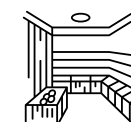

Sauna Room

Classic dry sauna experience with electric .

Infrared Sauna

Uses infrared panels to directly heat the body for relaxation and detox

Custom Sauna Cabins

Designed to suit residential and commercial facilities.

OUTDOOR SAUNA .

Weather-resistant saunas built for gardens, terraces, rooftops, or poolside use.

Your perfect villa upgrade

Transform your outdoor space into a private wellness retreat.

Steam Rooms

We supply and install custom-built steam room systems using high-quality materials, durable construction methods, and dependable steam generators from trusted brands. Our steam rooms are designed with a focus on performance, safety, and luxury, ensuring efficient steam distribution, optimal insulation, and easy maintenance. Whether for a private villa, spa, gym, or hotel, each system is tailored to suit your space and style—incorporating custom seating, ambient lighting, waterproof audio, and aroma therapy options for a fully immersive experience. From concept to completion, we deliver a complete steam solution that enhances both well-being and property value.

Hammam

Designs and delivers custom-built Hammam systems using high-quality, moisture-resistant materials and reliable steam generators to ensure consistent performance. Built for durability, energy efficiency, and comfort, our solutions are ideal for both residential and commercial spaces. Each Hammam is tailored to the specific layout and includes options such as heated marble seating and floors, ambient lighting, aroma infusion, and smart control panels. Ice fountains and cooling zones can also be integrated to complete the thermal experience. From concept to installation, EWS provides a smooth and dependable process focused on long-term performance and ease of maintenance.

Experience Shower .

An Experience Shower transforms a regular rinse into a full-body sensory ritual. Designed to simulate natural environments, it blends elements like dynamic water patterns, ambient lighting, soothing aromas, and integrated audio. Users can enjoy settings such as tropical rain, cold mist, or massaging jets while being immersed in therapeutic chromotherapy colors and essential oil-infused steam. With high-quality materials and smart control options—either via touchscreen or app—this shower system brings a spa-like escape to homes, gyms, and luxury wellness spaces

Relaxation Lounge .

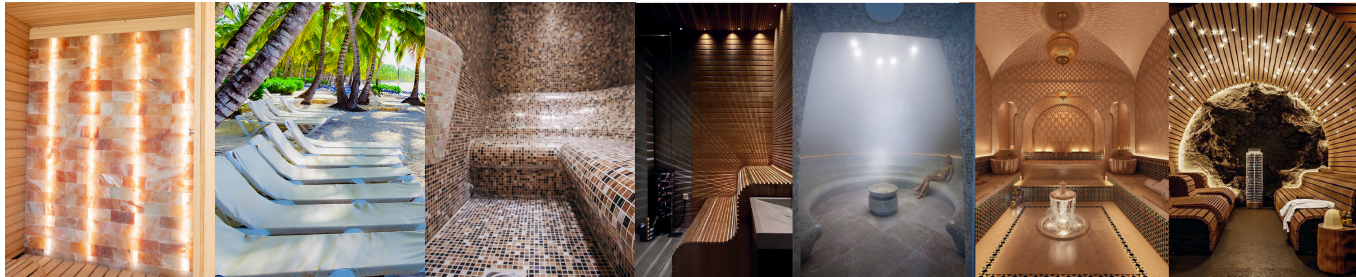

We offer fully customized Relaxation Lounge solutions tailored to your unique space and wellness concept. From choosing the shape and size of the loungers to selecting heating materials and tile finishes, every element is built to match your design vision. Our in-house EPS cutting unit allows us to create ergonomically shaped heated loungers with precision, ensuring maximum comfort and a perfect fit within your spa or wellness area. Whether you prefer a modern minimalist look or a luxurious mosaic-tiled surface, we make the process of building your ideal relaxation zone seamless and efficient.

Built for comfort

Every lounge is designed with human ergonomics in mind, promoting better blood circulation and deep relaxation after sauna or steam sessions.

Built for comfort

Each lounge is ergonomically shaped to support the body and improve circulation. Built-in temperature control provides even, adjustable heat for a deeper sense of comfort after sauna or steam sessions.

Accessories .
